

Welcome! The physicians and staff at OSU Maternal Fetal Medicine and OB Ultrasound are committed to providing you with the highest quality of care. We realize that an important component of your care is to make every effort to maintain our office schedule and to see you at your scheduled appointment time.

We ask for your understanding that emergencies and unforeseen complications do occur and may cause a delay in our schedule.

We typically have multiple doctors working in the office and patients being seen for a variety of reasons. Therefore, patients will likely be seen out of the order from arrival, depending on the physician and treatment required.

Please note: We do not have the facilities to entertain young children. Our patients often tell us they get more out of their appointment when they arrange for alternate childcare.

How early should I arrive for my appointment?

Please arrive approximately 15 minutes before your scheduled appointment to complete the registration process.

Do I need to have a full bladder for my ultrasound?

Certain ultrasounds do require a full bladder. For the type of ultrasound you will be having:

_____ You will need a full bladder.

_____ You will not need a full bladder.

If you do need a full bladder for your ultrasound, we understand that it may be difficult to wait to use the restroom until your appointment time, especially if you are traveling from a distance. We recommend that you bring your water bottle with you so you can continue to drink water while traveling to the office and while waiting for your appointment.

What happens if I am late?

In an effort to keep the office running on schedule, patients who arrive more than 15 minutes late may have an additional wait for their appointment. This is because patients arriving on time may be taken ahead of you. Patients who are 30 minutes late (or more) will be handled on a case-by-case basis and may be asked to reschedule their appointment.

What if I need to cancel my appointment?

If you are unable to make your appointment, please notify our office as soon as possible so that we can assist you in rescheduling your appointment. Please call us at (614) 293-2222.
